B.Tech Information Technology graduate with hands-on knowledge of Java, SQL, HTML, CSS, JavaScript, React, Data Structures and Algorithms, Object-Oriented Programming, and System Design. Experienced in developing academic projects using deep learning and Java Full Stack technologies, with a strong foundation in problem-solving and software development. Seeking an entry-level Software Developer role to apply technical skills and contribute to real-world software solutions.

EDUCATIONAL BACKGROUND

Vel Tech Multi Tech College Avadi, Tiruvallur.
Bachelor of Technology in Information Technology 2022 - 2026
Grade CGPA- 7.48

Sowdambikaa Matric HR, SEC, School Tiruchirapalli.
Class XII - BioMaths
Percentage - **74.26%**
Class X Percentage - **85%**

SKILLS AND TECHNOLOGIES

Programming Languages - Java, SQL.
Frontend - HTML, CSS, React.
Backend - JDBC, Servlets, JSP, Hibernate.
Core Concepts - Object Oriented Programming (OOP), Data Structures & Algorithms (DSA), Computer Networking, Design Patterns.
Database - MySQL.
Tools & Platforms- Git, GitHub, Docker.

INTERNSHIP

Java Full Stack Development Training - Tap Academy.

- Completed Java Full Stack Development training at Tap Academy, gaining practical knowledge of Core Java, JDBC, Servlets, JSP, Hibernate, SQL, and database management.
- Developed hands on experience in backend application development, CRUD operations, database connectivity and AI Integration to build intelligent and real world software applications.

CERTIFICATION

GOOGLE DATA ANALYTICS SPECIALIZATION

Completed Google Data Analytics Specialization, gaining foundational knowledge of data analysis, data cleaning, data visualization, spreadsheets, SQL, and Tableau to derive insights from data.

PROJECTS

SharePlate – AI-Powered Food Rescue Platform

Technologies: React.js, Core Java, Java Servlets, JDBC, MySQL, Apache Tomcat, AI API

- Developing a web-based food rescue platform that connects food donors with NGOs to reduce food waste.
- Implementing food donation management, recipient requests, pickup coordination, and AI-powered donation description generation using React.js, Java Servlets, and JDBC.

SmartSpend – AI-Powered Personal Expense Tracker | Java, JDBC, Servlets, JSP, MySQL, HTML, CSS, JavaScript.

- Developed a personal finance management web application that enables users to track income and expenses through manual entry and optional CSV bank statement imports.
- Implemented transaction management, spending analytics, and AI-powered insights to analyze spending patterns and provide budgeting recommendations.
